

**Remarks**

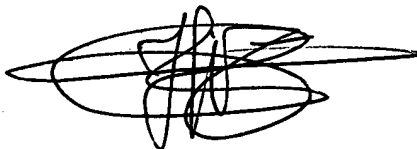

Applicants acknowledge the Examiner's Amendment as set forth in the Notice of Allowability dated November 12, 2004, and thank the Examiner for the introduction of such amendment.

The present amendments to the specification, including claims, correct for typographical errors and for text that was inadvertently omitted in the locations where it is presently introduced, while it was recited elsewhere in the application as filed. Support for these amendments is provided as follows:

- Deletions in the amended portions are self-explanatory and they are introduced to correct for the inadvertent duplicate recitation (as in the amendments to the recitations for groups R<sup>44</sup> and R<sup>24</sup>);
- text insertion (as in the amendment for the recitation of group R<sup>38</sup>) has support in the application as filed. See, for example, Application at p. 23, lines 6-7, p. 181, lines 30-31.

Applicants respectfully request favorable consideration of the present Amendment which is believed to maintain the present application in its condition of allowance.

Respectfully submitted,
